

Annual Assessment Report for Academic Programs

The University Assessment Team advocates for the enhancement of student learning through purposeful, meaningful and feasible student outcomes assessment practices. The Assessment Team seeks to collaborate with programs, departments, and units to ensure that effective assessment of student learning occurs across the University. To assist in meeting this goal, the Team requests that you complete this Annual Assessment Report form to document student learning in your program. A PDF version of this completed form will be posted to the Academic Affairs Assessment

7. Results, Planned Actions, and/or Actions Taken Briefly summarize the assessment results, how they relate to benchmark(s), and how you are using them to enhance student learning and improve program quality.

Approximately 90% of the students reached the benchmark of at least the grade of a C on homework/quizzes/exams/projects in ECN3050. Students demonstrated high levels on both understanding competing economic theories and applying qualitative methodologies on economic problems in the context of U.S and Global economic issues. The department does not feel there is a need for a substantial revision of the assessment tools, instruction, materials or projects at this time.
